IN NOVEMBER...

BY RABIA SALMAN

We have left November behind us with full of activities such as logos, posters, using various Web 0.2 tools, preparing warning signs and brochures about water saving.

Logo and Poster Selection

The logo of our student named Abdullah from Genç Osman Secondary School won 15.2 percent of 334 votes. Congratulations to our student and teacher.

The poster of our student named Emine from Selman-1 Farisi Anatolian Imam Hatip High School having the 13.9 percent of 620 votes. Congratulations to our student and her teacher.

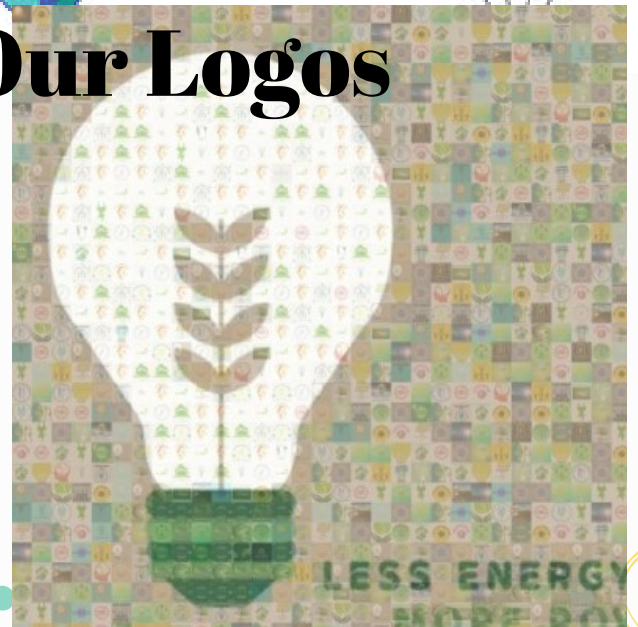

Energy saving is life saving so we should save energy

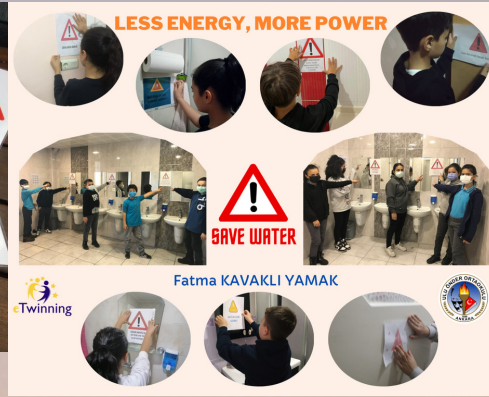

Mosaic Work From Our Logos

Using mosaically application, we created our mosaic work from the logos and published it on youtube.

Preparing Warning Signs

Our students hung the warning signs they prepared about water saving in their homes and in the relevant places in our school.

Preparing Brochures About Water Saving

Our students distributed the brochures they prepared about water saving to the students and teachers in our school.

Online Exhibition From Our Posters

We prepared a virtual exhibition from all posters by using emaze web tool.

What We Will Do ?

- Preparing and hanging warning signs about electricity saving in school and at homes.
- Conducting the "1 hour without electricity event"
- Making a story completion activity on electricity saving.
- Preparation of New Year's greeting cards.
